

Number of disclosed cyber incidents per c

This database merges data from two databases containing disclosed cyber incidents.

A cybersecurity incident is defined as an “occurrence that results in actual or potential information system or the information the system processes, stores, or transmits or policies, security procedures, or acceptable use policies.”

Source: WB Media-Disclosed Cyber Incidents database (column J) and University of Maryl

Note: The details of each disclosed cyber incident accounted here can be found in the next
